PROFESSIONAL PROFILE

Business Informatics student focused on frontend and web application development. Experienced in building responsive interfaces, integrating REST APIs, and developing academic systems using JavaScript, React, C#, .NET, SQL, and modern frontend technologies. Passionate about UI/UX, scalable applications, and continuous learning in software development.

TECHNICAL SKILLS

- **Languages:** JavaScript, C#, SQL, C++
- **Frontend:** React, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend & APIs:** REST APIs, JWT Authentication, Supabase
- **Tools:** Git, GitHub, VS Code, Visual Studio, Vite

FEATURED PROJECTS

Academic Management System

Developed a web-based academic management platform using JavaScript, Bootstrap, HTML5, CSS3, and REST APIs. Implemented CRUD operations for students, professors, courses, and groups with responsive user interfaces and external API integration.

Mechanical Workshop Management System

Built a modern responsive workshop management system using React, Tailwind CSS, Supabase, and Vite. Designed interactive UI components, authentication flows, dashboard interfaces, and scalable frontend architecture.

Personal Portfolio Website

Created a responsive portfolio website using HTML, CSS, and JavaScript to showcase projects, technical skills, and professional experience with modern UI design principles.
